

ASWAR PERKASA PUTRA

COMPANY PROFILE

ABOUT U S

PT Aswar Perkasa Putra (APP) is an Indonesia Company which was established in February 2010 in Jakarta. We are a professionals team and have good skill in the energy sector.

Our business include general supply in power generation industry and Oil and Gas Sector.

Our activities focus in providing mechanical electrical (M&E) spare part & services, instrumentation, maintenance and energy efficiency solution.

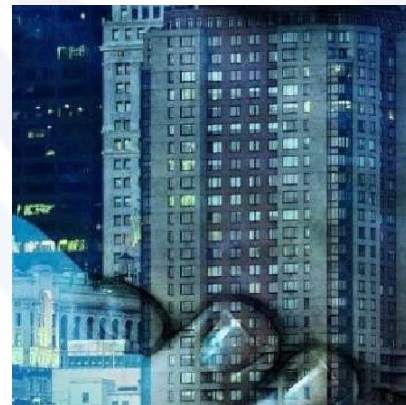

OUR VISION

To be the pioneer and excellency company in the field Power and Oil & Gas Energy Services

OUR MISSION

To be a business partner to provide the best economic solution and requirement customers. Provide technical and consultancy services

WHAT WE CAN PROVIDE

1. Production and Completion Tools
2. Artificial Lift :
 - Hydraulic Pumping Unit (HPU)
 - Electric Submersible Pump (ESP)
 - Progressive Cavity Pump (PCP)
 - Plunger Lift
3. EPF (Early Production Facility)
4. Production Equipment & Accessories
5. Wellhead Components & Accessories
6. Surface Facility :
 - Centrifugal Pump & Electric Motor
 - Hydraulic Systems & Filtration
 - Instrumentations
7. Overhaul & Maintenance Engine Generator and Compressor

OUR CLIENTS IN **POWER GENERATIONS**

OUR CLIENTS IN **OIL AND GAS SECTOR**

AND **MANY MORE**

SERTIFIKAT e-CHSEMS
PT Sele Raya Merangin Dua
NOMOR: 3322/SRMD/2022

Nama Mitra Kerja : ASWAR PERKASA PUTRA
NPWP : 02.993.190.4-018.000
Alamat : Gedung Perluasan Aldevco Ruang 3 Lantai 2 Jalan Warung Jati Barat Raya No 75
RT 021/ RW 005 Kelurahan Kalibata Kecamatan Pancoran
No. Telepon : 021 - 34615454
Email : yulis.aswar@apputra.com
Tahun Berdiri : 2009
Bidang Usaha :

Hasil Penilaian

Tanggal Penilaian : Jumat, 27 Mei 2022
Berlaku Sampai : Senin, 27 Mei 2024
Nilai Kualifikasi : 62.63 %
Hasil Penilaian : Lulus Kategori Risiko Tinggi

CATATAN:

1. Sertifikat e-CHSEMS ini diterbitkan atas verifikasi yang dilakukan terhadap dokumen dan informasi yang diserahkan Mitra Kerja kepada KKKK terkait.
2. Dokumen e-CHSEMS ini telah disetujui secara elektronik oleh Pejabat berwenang dan dinyatakan sah walaupun tanpa dibubuhi tanda tangan.
3. Informasi mitra kerja menggunakan data yang ada di CIVD.
4. Apabila ditemukan ketidaksesuaian dokumen dengan hasil penilaian, akan ditinjau kembali.

CERTIFICATE OF REGISTRATION

This is certify that the Quality Management System of:

PT. ASWAR PERKASA PUTRA

Perluasan Aldevco Lt. 2, Jl. Warung Jati Barat No. 75, Kel. Kalibata, Kec. Pancoran, Jakarta Selatan, DKI Jakarta, INDONESIA

has been independently assessed and is complying with the requirements of:

ISO 9001:2015

This Certificate is Applicable to the Following Product or service ranges:
Supplier, Maintenance, Construction, and Other Related Services for Oil & Gas, Power Generation Industries

1st Surveillance on or before : Apr, 30th, 2023
2nd Surveillance on or before : Apr, 30th, 2024
Recertification on or before : May, 29th, 2025

Certificate No : 220530001519K001
Date of Expiry : May, 29th, 2025

Date of Issue: May, 30th, 2022
Authorized Signatory 

VRC International is the brand of PT. Valubilitas Reabilitas Certi on conformity assessment service, VRC International has strictly followed all requirement of ISO 17021 for Conformity Assessment body and met all requirements of all Mandatory Documents of International Accreditation Forum for the Management System Certification Scheme.

The approval is subject to the company maintaining its system the required standards, which will be monitored by VRC International. The above audited unaccredited scope shall be monitored by VRC International Management scheme regulation.

VRC International is a conformity assessment body, in full requirement of ISO 17021 and meet the requirement of all Mandatory Documents of International Accreditation Forum for the Management System Certification Scheme. At the issuance of this certificate, VRC International, assumes no liability to any party other than to the Client and then only in accordance with the agreed upon Certification Agreement. This certificate's validity is subject to the organization maintaining their system in accordance with VRC's requirements for systems certification.

The certificate remains the property of VRC International, to whom it must be returned upon request.

OUR PRODUCT

Improved Phased Array Innovations for Efficiency

3X as fast as the OmniScan MX2 flaw detector (max pulse repetition frequency)

Single time-of-flight diffraction (TOFD) menu for accelerated workflow

Improved fast phased array calibration lessens frustration

800% high amplitude range reduces the need to rescan

Onboard Dual Linear Array™ and Dual Matrix Array™ probe support accelerates setup creation

Compatible with Existing Files and Setups

Existing probes and scanners

MX2/SX data files to compare new data with old and monitor changes through time

MX/MX2/SX setups to facilitate procedure compliance

Confidence You Can See

OmniScan™ X3 Phased Array Flaw Detector with TFM

TFM Images with Superb Detail

The combination of the OmniScan™ X3 flaw detector's live total focusing method (TFM) envelope processing, up to 1,024 x 1,024 grid resolution, and vibrant color display make its TFM images stand out with exceptional detail. Defects appear sharp and clear with high resolution

Facilitates Flaw Interpretation and Sizing

Up to four TFM modes provide images from different angles. This information can provide you with greater confidence when identifying defects and determining defect depth.

Confirm Your Coverage in Advance

The Acoustic Influence Map (AIM) tool provides you with an instant visual model of the sensitivity based on your mode, settings, and simulated reflector. The tool enables you to visualize the effect of a wave set (in TFM mode), see where sensitivity stops, and adjust your scan plan accordingly.

Detect Early-Stage HTHA

The instrument's advanced imaging capabilities translate into better and finer detection of high-temperature hydrogen attack (HTHA), so you can detect the damage mechanisms at an early stage, when it matters the most.

Reliable and Easy to Use

Get to Work, Quickly

The onboard scan plan, improved fast calibration, and streamlined user interface eliminate unnecessary steps to help ensure that you can complete your inspection setup in minimal time. If you are an existing OmniScan™ user, the transition from the MX2 is fast. If you are new to phased array ultrasonic testing or TFM, the OmniScan X3 flaw detector is easy to learn.

Equipped for Tough Challenges

Scan without Stopping

The 25 GB maximum file size enables you to continuously scan large components without stopping.

- 1) A single scan using 4 TFM groups optimized for a thickness of 50 mm.
- 2) Scan up to a single 7.6 m × 1.7 m (25 ft × 5.6 ft) storage tank plate with a 1 mm × 1 mm resolution using a HydroFORM™ scanner.
- 3) A single pass of a wind tower weld using 4 sector scans, 2 linear scans, and 2 TOFD groups.

The Workhorse of Your Inspection Fleet

The OmniScan™ X3 flaw detector offers tools to help you complete your work efficiently. Its range of applications include welds, pipelines, pipes, corrosion resistant alloys, corrosion mapping, HTHA inspection, detection of stepwise cracking, composite inspection, flaw imaging, and more.

A Better OmniScan

- ▶ IP65 certified rain and dustproof
- ▶ User-replaceable cooling fan can be changed without opening up the instrument or voiding the calibration
- ▶ Onboard GPS to record the location of your data
- ▶ Connect wirelessly to the Olympus Scientific Cloud™ to download the latest software as soon as it's available

OUR PARTNER

GTCTM
Control Solutions

**VOLVO
PENTA**

OUR PARTNER

Gas Turbine Controls (GTC) is a premier technology supplier of replacement parts that offers you access to the world's largest inventory of circuit boards and other components, as well as a state-of-the-art testing and repair facility. With GTC, you can extend your controls with genuine, tested, and warranted spares with personalized service and expedited delivery in case of forced outage of emergency.

CHOOSE FROM A VARIETY OF PARTS OPTIONS:

New/unused surplus parts that were never used in service

Remanufactured parts that were previously in service

Exchange program that provides extra savings for the exchange of your pullout parts

Repairs carried out in standard cycle times supplied with full repair and warranty documentation

**“SINGLE-SOURCE SUPPLIER :
YOUR PARTNER FOR PUMPS, VALVES AND SERVICE”**

STANDARDISED/CLOSE-COUPLED PUMPS

ETANORM

Applications:

For pumping pure liquids not chemically or mechanically aggressive to the pump materials: water supply, cooling water, swimming pool water, fire-fighting systems, seawater, spray irrigation, fire-fighting water, irrigation, service water, cleaning agents, drinking water, brackish water, drainage, condensate, heating, air-conditioning, oils, hot water.

ETANORM-R

Applications:

Spray irrigation, irrigation, drainage, district heating, water supply systems, heating and air-conditioning systems, condensate transport, swimming pools, fire-fighting systems, handling hot water, cooling water, fire-fighting water, oil, brine, drinking water, brackish water, service water, etc.

HOT WATER THERMAL OIL PUMPS

ETANORM-SYT

Applications:

Heat transfer systems (DIN 4754, VDI 3033) or hot water recirculation.

ETABLOC-SYT

Applications:

Heat transfer systems (DIN 4754, VDI 3033) or hot water recirculation.

SEAL - LESS PUMPS

MAGNOCHEM

Applications:

For pumping aggressive, toxic, explosive, valuable, flammable, malodorous or harmful liquids in the chemical, petrochemical and general industries.

MAGNOCHEM-BLOC

Applications:

For pumping aggressive, toxic, explosive, valuable, flammable, malodorous or harmful liquids in the chemical, petrochemical and general industries.

PROCESS PUMP

RPHb

Applications:

Refineries, petrochemical and chemical industries, offshore and onshore processes.

CTN

Applications:

For pumping chemically aggressive liquids, also slightly contaminated or with a low solids content, in the chemical and petrochemical industries.
